OWNER'S MANUAL

Important Information to Read!

A screw is located in the center of the back of the safe door. This screw is needed to prevent the safe from being locked while on display. Simply remove and discard the screw.

(Model 1250 only) A red plug is located inside the door jamb. Remove and discard plug before using the safe.

You may notice a slight gap between the safe body and door or some play in the door. These are normal features of the safe.

In Case of Fire
Advise fire department of safe's location. Cool safe with a fine spray of water or CO₂ fire extinguisher. Always cool safe before opening.

Last Combinations
You may get a copy of your combination from our factory in the United States provided we receive:

1. Written statement of ownership witnessed and signed by a notary public.
2. \$5.00 (U.S. dollars) research fee. Please send a check or money order, do not send cash.
3. Serial number from white label located on the outside of the safe. Do not send the Underwriters Laboratory number located on inside of the safe.

SENTRY
OWNER'S MANUAL

Important Information to Read!

It is vital to read the entire contents of this manual before using the SENTRY fire safe. This manual is intended to provide the user with the information needed to operate the safe properly and to ensure the safe's performance and safety.

Read this manual carefully! It contains important information and instructions that must be followed to ensure the safe's performance and safety.

Do not use the safe for anything other than storing valuables. The safe is not designed to protect against fire, theft, or other damage.
