88 Key
Design
The new 88-key keyboard was designed to be compact and portable, making it perfect for travel and use in small spaces. It features a full-sized keyboard layout with a numeric keypad and a dedicated function key.

Quiet Type
Key Technology
Our keyboard is designed to be quiet and comfortable to use, even in a noisy environment. The keys are designed to provide a satisfying tactile response without the loud clacking sound of traditional keyboards.

Full Base
The keyboard is designed to be used in a variety of ways, including as a full-sized keyboard or as a compact keyboard. It features a full-sized keyboard layout with a numeric keypad and a dedicated function key.

Lightweight
Portable
The keyboard is designed to be lightweight and portable, making it easy to carry and use in a variety of settings. It is perfect for travel and use in small spaces.

A close-up photograph of a mechanical assembly, likely a printer or copier. The image shows a complex arrangement of metal and plastic parts. A prominent feature is a series of parallel metal strips or a comb-like structure. A white label with the text 'D 2' is affixed to a dark grey metal component in the foreground. The background is dark and out of focus, highlighting the intricate details of the machinery.
